Little munchkins of LKG recapitulated the number concept while playing the Ant Number Trap Game. They enhanced their counting and one to one correspondence skills while trapping the correct number of ants using number cups. All the students learned collaboration and teamwork and had a joyous time with their friends too.

Letter Fun Activity

Sorting objects together is an important cognitive skill. Learning the letter sound first and then the letter name are important for reading and writing development.

LETTER FUN

Children of Nursery did the sorting of letters and objects and they enjoyed the activity.

Children were keen to learn the alphabets along with their phonic sounds and they really enjoyed it.

Healthy Food Activity

HEALTH IS WEALTH

Healthy food habits are inculcated in children by their parents early on. These habits along with the right education and physical exercise lead to an overall development of an individual. To fully understand the prominence of healthy food in our diet, we must also be aware of unhealthy food, that is, the food that we must avoid eating.

So our Nursery students did healthy and junk food activity whereby they understood about the importance of eating healthy food, in a fun way.

My Family

"Family gives you the roots to stand tall and strong."

To make our children of Westwind Kindergarten understand about the family, a joyful activity was conducted for the students of LKG wherein, they drew pictures of their family members on worksheet and coloured them.
